Specification

Initial Lumen:	100lm \pm 10%(High brightness)	Battery:	5200mAh
Product Dimension:	6.37*2.83*12.99 inch	Weight:	1 lbs
Charge Time:	3-4 hours (5V 2A charge)	Power Bank Feature:	Yes
Airflow Speed:	Low-Middle-High	Dimmable :	Low-Middle-High
Runtime:	5 hours duration at high fan speed, over 30 hours at high lumen led mode		

Warning

This device complies with Part 15 of FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
